Maritime Administration  
United States-Flag Privately-Owned Merchant Fleet Report  
Oceangoing, Self-Propelled Vessels of 1,000 Gross Tons and Above that Carry Cargo from Port to Port**

To provide any updates for this list, please e-mail [DATA.MARAD@DOT.GOV](mailto:DATA.MARAD@DOT.GOV)

**Coverage:**

This report contains a listing of oceangoing, self-propelled, privately-owned U.S.-flag vessels of 1,000 gross tons and above that carry cargo from port to port for commercial and government customers. New vessels are considered to have entered the fleet once they are "In Service."

**Vessel Types:**

The vessel categories used for this report include the following types of vessels:

Tankers: Petroleum Tankers, Chemical Carriers, LNG Carriers, LNG/LPG Carriers, LPG Carriers.

Container: Fully Cellular Containerships

Dry Bulk: Bulk Vessels, Bulk Containerships, Cement Carriers, Wood Chip Carriers, Ore/Bulk/Oil Carriers, and Bulk/Oil Carriers.

Ro-Ro: Ro-Ro Vessels, Ro-Ro/Containerships, Vehicle Carriers.

General Cargo: General Cargo Carriers, Partial Containerships, Refrigerated Ships.

**Tonnage Measurements:**

**Gross Tonnage** is volume of all ship's enclosed spaces (from keel to funnel) measured to the outside of the hull framing, calculated using the International Tonnage Convention.

**Deadweight** is the total weight (metric tons) of: Cargo, fuel, fresh water, stores and crew which a ship can carry when immersed to its load line.

**Operator** - Company responsible for the commercial decisions concerning the employment of a ship and therefore who decides how and where that asset is employed. The direct beneficiary of the profits from the operations of the ship, this company may also be responsible for purchasing decisions on bunkers and port services. A medium to long-term time or bareboat charterer is considered to be the operator of the ship. Companies heading operator pools are Operators of the ships in the pool.

**Document of Compliance (DOC) Holder** - The owner of the ship or any other organisation or person such as the manager or bareboat charterer who has assumed the responsibility for the technical operation of the ship from the owner of the ship and who on assuming such responsibility has agreed to take over all the duties and responsibilities imposed by the ISM Code. A documented company on both DOC and SMC Certificates issued by flag Administrations; but the information for which is also available from the Responsible Organisations, such as Classification Societies, who may undertake the audits. In most cases the DOC Company will be responsible for the Technical Management of the ship.

**MARAD Commercial Sealift Support Programs:**

**MSP** - Maritime Security Program

**TSP** - Tanker Security Program

**VISA** - Voluntary Intermodal Sealift Agreement

**VTA** - Voluntary Tanker Agreement\*

**Jones Act Eligible** - Vessels that are eligible to participate in domestic trade. Jones Act eligible vessels are built in the United States, owned by United States citizens and crewed by U.S. Mariners.

**Militarily Useful Sealift Vessels**

The following definition is based on the Joint Publication 4-01.2, Sealift Support to Joint Operations, Chairman of the Joint Chiefs of Staff, 22 June 2012.

**Vessels on MSC Charters** - Vessels that are on long-term MSC charters lasting over 180 days.

**These criteria are for planning purposes only. During execution any vessel offered for sealift may be considered.**

*General criteria - all active and inactive oceangoing ships within the following types and criteria and a minimum speed of 12 knots including:*

A. Dry cargo - All dry cargo ships, including integrated tug/barges (ITB) with a minimum capacity of 2,000 deadweight tons (DWT) capable of carrying, without significant modification, any of the following cargoes: unit equipment, ammunition, or sustaining supplies. Examples of ship types included in this category are; containerships, breakbulk, Roll-on/Roll-off, and heavy lift vessels. Dry Bulk Carriers are generally not considered to be militarily useful.

B. Tankers - All tankers, including ITB and chemical carriers, capable of carrying refined petroleum, oils, and lubricants with a capacity range from 2,000 to 100,000 DWT.

C. Other specially selected vessels, including any vessel approved by the Department of Defense for participation in the Maritime Security Program (MSP), Voluntary Intermodal Sealift Agreement (VISA), or Voluntary Tanker Agreement (VTA) programs.
