**Notes:**

1. Tonnages and revenues for military contract cargoes are reported by the Military Sealift Command (MSC) and the Military Surface Deployment and Distribution Command (SDDC). Tonnages are from vessel manifests and lift reports of ocean carriers, and from DOD booking and payment systems to ocean carriers that carry DOD sponsored cargo by liner contract or charter contract during the fiscal year. Foreign Military Sales cargoes are excluded. “U.S.-flag privately-owned vessels” and “foreign-flag vessels” represent cargoes transported by contract with liner carriers.
2. Tonnages and revenues for commercial cargoes are derived from rated ladings submitted by shippers to MARAD’s Office of Cargo Preference.
3. Tonnages and revenues for DOD personal property and POV shipments are reported by SDDC from rated ladings submitted for payment by carriers performing under SDDC contract.
